Frost-Proof Yard Hydrant

The **CYHXLF** Series frost-proof yard hydrant provides year-round outdoor water for farms, ranches and properties of every size. The valve and drain sit below the frost line and empty the riser after each use, so there's nothing left to freeze. It's built with a ductile iron head, stainless steel internals and a leadfree brass waterway and comes in 1 to 6 ft. bury depths.

Key Features

- **Frost-proof by design:** The valve and 1/8"–27 NPT tapped drain sit at the base of the riser, below the frost line, and drain the riser after every shut-off so no water is left to freeze.
- **Rugged ductile iron head and handle:** Powder-coated ductile iron castings stand up to weather, impact and years of daily use.
- **Corrosion-resistant internals:** 304 and 316 stainless steel operating rod and hardware resist corrosion for long service life.
- **Tight, reliable seal:** Dual Buna-N O-rings and a rubber-coated brass plunger.
- **Protected riser:** 1" zinc-plated steel riser shields the operating rod over the full bury depth
- 3/4" MHT hose outlet x 3/4" FNPT inlet
- Lead-free
- 3-year limited warranty
- Available in 1 to 6 ft. bury depths
